

Joyce Hyam, RN, PHN, MPA/HAS

Testimonials:

Top qualities: Great Results, High Integrity, Creative

"Our healthcare organization was thrilled to have Joyce Hyam present a program on positive communication, a positive culture and positive rapport building. It was a fun presentation and we enjoyed the interaction. We were talking about it for days. The tools Joyce presents are easy to use and can be put into practice right away and the results are fantastic. We are all feeling the positive impact and so are our patients and their loved ones. This program will benefit any organization that wants to positively enhance the patient and employee experience."

"Your program has been truly a life-changing one. Thank you so much! I have spoken to many people about this."

"Joyce's presentation was a refreshing jolt of energy. I like that she is bringing this positive energy to healthcare as sometimes as clinicians we get bogged down in the day to day routine of healthcare and it is good to get a reminder of how positivity can help our patients.. I found Joyce to be organized and efficient with a lot of energy. She took a difficult concept and made it simple to understand. She has a lot of information and easily shares her knowledge. She would be a huge asset to any group and everyone could benefit to hear what she has to say."
