This session provided tools/skills that I can use in my organization.	4.81	

#### How might this session be improved?

- Great stories!
- Most powerful speaker this week. Thank you!
- Ms. Bartholomew was very good. She's a great speaker. Perhaps providing practical tools (i.e. finance arguments) to help me drive this point home in my organization.
- Most important, compelling presentation I have been in with ACHE since I have been a member. Thank you.
- Outstanding speaker - changes views.
- Outstanding!
- Nothing. Kathleen was incredible! I am inspired, but couldn't absorb all her ideas. I'll have to re-read my notes several times to get it all.
- Should talk about bridging, gap, black/white frontline and administration.
- This was my favorite session. Excellent speaker, excellent examples.
- Presenter did an awesome job accomplishing her objective! Very passionate - thank you!
- Love her honest, frank style and ability to address difficult issues.
- Can't be improved. Best speaker!
- I have rated many speakers '5'. They should all be changed to '4' now that I have finally witnessed and been taught at the '5' level.
- Cognitively I agree with all that has been said. Yet continue to feel overwhelmed by the needed changes.
- Wow! Compelling.
- Great speaker, great stories, very applicable.
- Keep as is - love the passion...
- Phenomenal - excellent presentation. Excellent use of evidence-based practice. I was spell-bound from start to finish.
- Excellent presenter. Amazing command of her content. I could have listened for hours. Thank you for representing the nursing profession so well.
- It is important to recognize complexity but do not let people believe that is is simple to address it by following a pattern of behavior!
